

"A UNIQUELY BIOAVAILABLE OMEGA-3 THAT BENEFITS EVERYONE"

It's not what you swallow but what you **ABSORB** that counts. **K48-PLUS** is at least **48 times** more absorbable than other Omega 3s such as fish oil. It possesses a unique combination of super anti-inflammatory and antioxidant protection. K48-Plus produces **AMAZING RESULTS** for most health conditions that afflict us today.

THE STORY: K48-PLUS is both a remarkable anti-inflammatory as well as a powerful antioxidant. The anti-inflammatory effects of K48-PLUS are legendary, producing remarkable results in virtually all the systems of the body, especially the brain, the joints, the heart, and the circulatory system. Unlike some antioxidants, those in K48-PLUS protects the eyes, brain, and central nervous system from free radical damage.

K48-PLUS

NUTRITION FOR THE BODY:

Omega-3s are one of the most proven supplements in today's market. In JD Premium's easy-to-absorb capsules, most people see amazing results right away. It impresses me how omega-3s improve numerous cardiovascular conditions as well as those of the brain and nervous systems, vision, joints and muscles, hormones...you name it.

THE SCIENCE:

K48-PLUS has an exceptional load of the famous long-chain fatty acids DHA and EPA you hear so much about in the news—the omega-3s. But, unlike fish oil (the most common omega-3 supplement), which is bound to triglycerides, K48-PLUS contains loads of already esterified phospholipids that are linked to EPA and DHA. This makes one tiny capsule the equivalent of a dozen or more fish oil capsules. The mountain of studies confirming the importance of supplementing with omega-3s are even more compelling with K48-PLUS. I recommend K48-PLUS from conception (for baby's brain development) to grave (for the anti-aging and especially the anti-senility studies).

Ingredients: Omega-3 Fatty Acids, EPA, DHA, Phospholipids, Astaxanthin, Choline, Vitamin A, Vitamin E, and more...

CAUTION: *People with seafood allergies, coagulopathy, or taking anticoagulants or other related medications should notify their physician and be tested prior to taking this dietary supplement.*
